- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The risk and reward category shown is not a target or guaranteed and may shift over time. A category 1 is not a risk free investment. This indicator is not a measure of the risk of you losing the amount you have invested. The Fund is not guaranteed and your investment is at risk.

This Fund is in category 5 (denoting higher risk, but with the potential for higher rewards) because of the higher range and frequency of price movements of the underlying investments made.

The indicator above does not take account of the following risks of investing in the Fund.

Credit Risk – A borrower or counterparty may fail to repay or otherwise fail to meet contractual obligations to the Fund.

Liquidity Risk - under unusual market circumstances certain assets in which the Fund invests may be subject to liquidity constraints.

Investment Risk – The Fund may not achieve its investment objective. An investment in any Fund involves investment risks including possible loss of the amount invested.

Foreign Exchange Risk - As the Fund may invest in global equity securities, there is a risk of currency fluctuations, economic or financial insolvency, lack of timely or reliable financial information, possible imposition of foreign withholding taxes or unfavourable political, economic or legal developments.

There is no guarantee that the value of investments in this Fund will increase. Losses may be incurred on this investment.
