This Fund is in category 5 (denoting higher risk, but with the potential for higher rewards) because of the higher range and frequency of price movements of the underlying investments made.

Derivative Risk – The Fund may construct strategies under FDIs that are long only, short only or combinations of long and short by investing in the underlying assets. Investment Risk – The Fund may not achieve its investment objective. An investment in any Fund involves investment risks including possible loss of the amount invested.

Foreign Exchange Risk - As the Fund may invest in global equity securities, there is a risk of currency fluctuations, economic or financial insolvency, lack of timely or reliable financial information, possible imposition of foreign withholding taxes or unfavourable political, economic or legal developments..

There is no guarantee that the value of investments in this Fund will increase. Losses may be incurred on this investment..
