Management fees

Davy charges an annual management fee which is calculated at 1.25% per annum on the value of your portfolio unless varied in writing by Davy. This fee is charged semi-annually for the periods 1 January to 30 June and 1 July to 31 December. The fees will be calculated and applied in June and December respectively based on a proportionate fee being applied to your opening valuation for each of the months in the six-month period; accumulated semi-annually. The fee will apply for the full six-month period regardless of when the account is opened or closed. In the case of account closures, the fee will be charged based on the balance prior to outflows being initiated and will be due prior to account closures. VAT will be applied at the prevailing rate. The total amount will be deducted from your portfolio.

There is a minimum fee of €3,000.00 which includes nominee charges and is subject to VAT (except PRSAs, where no minimums apply). In the case of PRSA accounts, please contact Davy for information on our charging matrix.

The value of investments in any of the fund share classes specified below will be excluded from the account balance in calculating the Management Fee.
